

#### Site Size

Cross sections every 50 feet for 3,000 feet

#### Project Status

Complete

#### Project Team

- Robert R. Stout, PE, CME, LS
- Ken Carruth
- Jack Shildmeyer
- Tom Walsh
- Chris Caruth

## DESCRIPTION

Stout & Caldwell was subcontracted to provide a topographic survey of Paradise Road as part of a roadway safety reconstruction and alignment project. Specifically, the road survey encompassed a 3,000 foot stretch from Route 44 in West Deptford to just past the curve towards the refinery. The scope required cross sections every 50 feet and 10 feet past the curb line, fence or nearest object. Surveyors were also tasked with marking utility locations to include sewer, storm downs, signs, striping, poles, trees and a all other objects within the Right Of Way (ROW).

#### Community impact:

- Provide roadway safety reconstruction and alignment
